

cards/groups/stacks can be added to it, changing its value.

A “stack” is two or more groups or individual cards of the same value, stacked together one above another. Other cards/groups/stacks of the same value can be added to it.

A Fool counts as 14 pips or as 1. If both values are possible, the player interacting with it may choose.

Setup

Set mat such that each side points towards a player.

Randomise first dealer.
② or ③: remove the Stars suit.

Each round

Set the Illumat (lower box) with arrow pointing towards the dealer.

Place one okus (metal token) per player on the Illumat.

Dealer shuffles deck and deals three cards face up to each of the four fields, and four cards face down to each player (only three for the player to dealer’s left, who will play first).

Shuffle large Luminary cards and deal one face-down to each corner.

Play turns in rotation until all cards have been played.

Each turn

Play one card to do one of:

- Sow (not in the Autumn field): place one card in a field
- Harvest (not in the Winter field): play one card to collect any desired cards, groups or stacks of matching value from a field. Place all cards including

the played one in your scoring pile.

- Stockpile (not in the Spring field): play one card into a field to combine with others and create a group or stack, asserting that you have another card in hand of that new group or stack’s value.

If you played a face card (Fool, Knight, Queen, King) turn the Illumat to match its season to the field. (If it was a Star, choose the orientation.)

Then draw up your hand to four cards.

If you emptied the field:

- IPS on all cards. Other is value is the total value of all grouped together side by side.
- A “group” is two or more cards.

Notes

IPS

Be the first player to reach 17

Roger's Rules: Finalable/BG

Illumat

Scoring

IPS

Count your Summer cards. The player with most cards gains 4 points.

Count your Sunless cards. The player with most Sunless cards gains 2 points.

(Sunless).

Count your Luminary cards. The player with most Luminary cards gains 4 points.

Count your Okus. The player with most Okus gains 4 points.

Break final score ties by Left, Right, Middle, then Left the stand.

Okuses this round, then Fools Luminary this round, then this round, then Left the stand.

Break final score ties by Left, Right, Middle, then Left the stand.

Next dealer is to current dealer's points, no score.

Player with most luminary of the three fields in a row will get a point.

Effect, i.e., in Play, effect will apply to everyone while it remains face up. If there are multiple Luminary, each applies to and apply to its Luminary.

If the Luminary is face down, effect it and apply to its Luminary.

- Take an Okus, if it's available, up, collect it and apply to its Luminary is face

- Tidbreak each in favour of cards.
- deck, reuse the field with three cards.
- Take an Okus, if it's available,
